There is nothing in which the disorder, untidiness, filth, and squalor of the Chinese is abown more strikingly than in building. operations. This is mainly owing to the large are neces arily growded together, with the m. neagre provision of smithry arrangements. The justification for the proposed pulling down of Taipingshun is sought in the fear of some reoradesome of the plague. It must be admitted that the conditions of disorder and uncleanness inseparable from demolition and building operations, in a crowded busin, such as taipingshan, will be just those most likely to invite its re-

ing. This will not be confined to the South of Taipingshau streets but will be felt by the advocacy would be repugaant to the sentiment crowded inhabitants occupying the large area of an ordinarily honest man, the lawyer would to the North of this boundary. The forty or fifty millious of bricks alone are sufficient to a permission to commit perjury with impunity cover the whole site to a depth of many fact -a condition of things, hard to reconcile with How are these to be safely stacked upon this the fact that so many honest and honourab's staircase-like surface? Again, nothing will prevent the area from becoming a dumping ground for the filth of the whole neighbourhood. It will be an nuregulated latring for the thousands of coolies employed, and also for a large proportion of the surrounding inh bitants, who, for the daily saving of a single oash, will forego the luxury of the existing similary arrangement and pollute the surface. The July number of Sylvia's Journal contains an interview with Sir Joseph Barnby on "The Advantages of Choral Singing" and the strength and weakness of English choirs. Sir Joseph; who is one of the greatest of our choral conductors, recommends that all musical students should belong to a choir, one of the great edvantages of this being that it removes self-centredness from vocalists. When once they get rid of the feeling of isolation they can throw themselves heart and soul into the music they are singing. Nevertholess he thinks it advisable that the student should have some previous training, to avoid the possibility of the voice being misused and permanently injured. To emphasize the benefit choral singing may be to sight, reading. and to the improvement of musical knowledgethat, he says, is superfluous; but many overlook the fact that it cultivates the ear and quickens the perceptive faculties generally. This is especially the case with those who sing an inner part; in addition to following the notes before them, they listen to the other parts. and to the effect of the whole.

YKULUS PATENT OKONITE TRUSSES for Bernia (Rupture) are in all respects the most perfect and unique instruments ever offered to the public as mechanical supports and remedial apdiances for any form of rupture or internal prolapse. hese trueses are of the best possible manufacture : they are self-adjusting, light, and comfortable. The external surface being completely covered with a non-absorbent material (Okonite) renders them absolutely impervious to moisture, perspire ion, and the agid exerctions of the skin, cannot rust or get out of order, cause no entaneous irritation, will hold securely any size protucton without pain or united pressure, has neither understraps, levers, nor oumbreak fastenings, may be washed when necessary with impunity, and can therefore be worn any length of time in any elimate without becoming offensive, as is the case with those constructed of lenther, clastic, and other chiestic public restrictions of a partner, clastic, and other objectionable materials of a porous character. 96 Commercial Road, Peckham, July 12, Deur Sir, -I am a poor hand at expressing my feelings, but I should like to thank you. Your letenges have done wenders in relieving my terrible cough. Since I had the operation of Trachectomy (the same as the late Emperor of Germany, and unlike him, thank God. I am still alive) performed at St. Bartholomew's Lospital, no one could possibly have had a more violent cough; it was so had at times that it quite exhausted me. The muons, which was very copious and hard, has been softened, and I have been able to got rid of it without difficulty. —I am, sir, yours truly J. HILL. yours teuly, J. HILL."
